

PNC DIAMOND CLUB AT NATIONALS PARK

WASHINGTON NATIONALS | WASHINGTON, DC

This private club at the Washington Nationals Ballpark underwent a complete renovation. With a contemporary design aesthetic, the intent was to create a high-energy and sleek setting, thus increasing the desirability of membership. A new facade and entry was designed to welcome members to the upscale dining and lounge environment. The club's interior design incorporates a concierge entry, multimedia lounge, cocktail bar, dining room, exhibition kitchen, and an in-seat kitchen. The project was completed on an accelerated schedule in order to complete construction within the constraints of the Major League Baseball off-season.
